## PROFESSIONAL EXPERIENCE

### BACKEND DEVELOPER

Perwatch- 2024 [www.perwatch.com](https://www.perwatch.com) [www.monitic.com](https://www.monitic.com)

As a Senior Backend Developer at Perwatch, I am responsible for developing [API services using Node.js \(Express.JS, Nest.JS\) and GoLang \(Fiber\)](#), as well as maintaining and enhancing existing projects. I work on the company's global monitoring and data protection platform, allowing businesses to track employee performance from a single dashboard and monitor critical file movements in real-time.

### BACKEND DEVELOPER

Microprefix - 2024 [www.microprefix.com](https://www.microprefix.com)

During my time at Micro Prefix, I especially dealt with system management programs and took part in jobs such as hospital management and online education applications. Technologies [I Use: Nginix, Elastic Search, Redis Docker, Linux, TypeScript \(Nest.js\), Next.js, Express.js](#)

### FULL STACK DEVELOPER

Teklif Bilişim - 2023 [www.teklifgroup.com](https://www.teklifgroup.com)

I worked on educational projects at Teklif Bilisim. I took part in a project such as dersigo.com. I had the opportunity to work with technologies such as [Nest.js Next.js Express.js Elastic Search Docker](#).

### BACKEND DEVELOPER

DveB Software Solutions - 2023 [www.dveb.com.tr](https://www.dveb.com.tr)

DveB is a digital advertising agency that provides creative and performance-oriented experience services to its clients, solving their software and visual needs with a full service model.

My role is to support projects as a backend developer, perform project management and test the application technologies [I use; Node.js, JavaScript TypeScript, Mongo DB](#)
